Everest Paudel

Backend-Focused Golang Developer

Rupandehi, Nepal

📞 +977-9828722827 | ✉ everest@paudel.dev | 🌐 paudel.dev | in linkedin.com/in/everestp | ⦿ github.com/everestp

TECHNICAL SKILLS

Languages: Go (Golang), TypeScript, SQL, JavaScript, C/C++
Backend Development: Go-chi, Gin, GORM, gRPC, RPC, AMQP (RabbitMQ), Microservices
Cloud & DevOps: Docker, Kubernetes, AWS, Git
Databases: PostgreSQL, MongoDB, Redis, Appwrite, Drizzle ORM, Supabase, Convex

PROJECTS

exampaper.org | React.js, Appwrite   2025
- Built a full-stack educational platform for accessing academic resources and mock exams.
- Developed responsive frontend using React.js.
- Implemented authentication, database, and storage using Appwrite.
- Designed Library and Mock Test modules with search and filtering features.

CodeNumber.net | React.js, Appwrite, Monaco Editor   2025
- Built an online coding learning platform aligned with Tribhuvan University syllabus.
- Developed responsive UI using React.js.
- Integrated Monaco Editor for in-browser coding and practice.
- Implemented authentication and backend services using Appwrite.

Godec.xyz | React.js, Solana ,Rust   2025
- Designed and developed a decentralized application platform with wallet-based authentication.
- Implemented multiple on-chain mini applications including Todo, Notes, Voting, Crowdfunding, and Chat.
- Ensured data ownership and censorship resistance using Solana smart contracts.
- Built secure frontend interfaces integrated with Web3 wallets.

CERTIFICATIONS & TRAINING

Working with Microservices in Go (Golang) | *Udemy*   2025
- Built loosely coupled services communicating via JSON, RPC, and gRPC.
- Implemented event-driven systems using RabbitMQ and deployed with Docker and Kubernetes.

Backend Engineering with Go | *Udemy*   2025
- Built production-grade APIs using Go and PostgreSQL.
- Learned scaling strategies and containerized deployments.

Complete Microservices with Go | *Udemy*   2025
- Learned advanced patterns for building and deploying distributed systems with Kubernetes.

Complete React and NextJS Course with AI Projects | *Udemy*   2025
- Built full-stack applications using Drizzle ORM, Supabase, and AI APIs.

Docker and Kubernetes for Beginners | *Udemy*   2025
- Learned containerization and orchestration across AWS, Azure, and GCP.

EDUCATION

Institute of Science and Technology, TU   2023 – 2027
B.Sc. Computer Science & Information Technology (Ongoing)   *Banke, Nepal*

Bluebird College   2020 – 2021
Higher Secondary (+2 Science) – GPA: 3.22   *Kathmandu, Nepal*
